

HEALTH & SAFETY RECOMMENDATIONS ESD CDM 68.910

According to article 33 of directive 1907/2006/EC

1. PRODUCT'S NAME

ESD CDM 68.910.

2. DESCRIPTION / COMPOSITION OF PRODUCT

This product is a solid composite material made up of glass fabric bonded with an epoxy resin fully cured. It is available in a form of rigid sheet or as a machined part. It is black in colour. It is not subject to labelling safety.

3. EXPOSURE CONTROL – PERSONNEL PROTECTION

During machining extraction of dust at the point of emission should be applied.

Also we recommend

- The establishment of a system for extracting dust.
- Wearing handling gloves.
- Wearing a mask and goggles.

The type of individual protective equipment is defined by the user depending on use conditions and regulations applicable in the place of use.

If exposure, we recommend

- Skin contact, wash with soapy water.
- Eye contact, wash with water (not soap) opening eyelids.
- Ingestion, wash mouth with water, call for a physician.
- Inhalation, remove the victim from polluted area.

In case of doubt or reaction seek medical advice.

4. STABILITY AND REACTIVITY OF PRODUCT

This product is a flame retardant composition and is stable within normal conditions of use. In case of combustion, it may emit oxides of carbon and hydrocarbon products. It is stable in storage under normal conditions of temperature and humidity.

5. <u>FIRE FIGHTING MEASURES</u>

Means of extinction used and recommended are sprayed water and additive, foam, powder. Given the composition of the fumes, it is recommended to protect against the risk of poisoning by fumes by wearing a respirator.

6. <u>ECOLOGICAL INFORMATION</u>

The dust resulting from the machining of the product should not be discharged into the environment. It must be disposed of according to the regulations in force at the site of burning or burying.

Under REACH safety data sheets have to be provided for substances and preparations (Article 31). For articles there is a duty, to communicate information on certain substances, contained in articles in a concentration above 0.1% (w/w). Any supplier shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance (Article 33). This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship
